Subject: Re: Regarding Oct. 29

I'm glad you were able to be here yesterday and hope you enjoyed your day.
Circling back to the visit for Nov. 19. I will have Ms. Faye Chatman and Ms. Kathleen Freeman with me on that date.

Faye is the program coordinator for our degrees in the Franklin College of Arts & Sciences (Microbiology and Interdisciplinary Studies with either a psychology or sociology concentration).

Kathleen is the program coordinator for our degrees in the College of Agricultural and Environmental Sciences (Agribusiness, Biological Sciences, Environmental Resource Science and a masters in Plant Protection and Pest Management).

We plan to be there from 9:30 until 11am.

Can you let me know whether we'll be splitting up to talk with separate groups or if we'll all have one audience for that time period? We want to plan our presentations accordingly and want to be sure we are prepared for the appropriate number in attendance, too.

I am going to copy Effie Antonoudi on this, too. While Effie (she's Consumer Economics) can't come with us on that date, given the conversation at the lunch and learn yesterday, I wonder if it may be beneficial for the 2 of you to work on a time that she may come and talk with your class of with your FBLA.

I look forward to hearing the details for the Nov. 19 visit so that Faye, Kathleen and I can start working on that!
