

Sample Math Problems-Wednesdays

5 minute examples

The screenshot shows a Google Classroom assignment page. At the top, there are two tabs: 'Instructions' and 'Student work'. Below the tabs, there is a blue icon of a document with a list, followed by the text 'Due Oct 30, 2019'. The main title of the assignment is 'Math Problem-October 30th' in a large blue font. Below the title, there is a profile picture of Sharonda Bostic and the text 'Sharonda Bostic Oct 30, 2019'. A horizontal line separates the header from the problem text. The problem text reads: 'Bonnie has twice as many cousins as Robert. George has 5 cousins, which is 11 less than Bonnie has. How many cousins does Robert have?' followed by four multiple-choice options: 'a. 17', 'b. 21', 'c. 4', and 'd. 8'. Below the problem, there is a section titled '25 class comments'. The first six comments are visible, each with a profile picture, the student's name, the date 'Oct 30, 2019', and the answer 'd'.

Due Oct 30, 2019

Math Problem-October 30th

Sharonda Bostic Oct 30, 2019

Bonnie has twice as many cousins as Robert. George has 5 cousins, which is 11 less than Bonnie has. How many cousins does Robert have?

- a. 17
- b. 21
- c. 4
- d. 8

25 class comments

- Isaiah Jackson Oct 30, 2019
d
- Joshua Driver Oct 30, 2019
d
- azavion wilkerson Oct 30, 2019

d.

We review a math problem-discuss it by breaking it down in parts, by breaking apart the sentences in order to solve the problem.

Students submit answers into google classroom to receive a grade. Correct answer is d. Students received grade of 100.

Alignment with school goals for math.
